

## **Eligible Countries**

Eligibility is restricted to developing countries. Irish Aid particularly welcomes projects that have a partner based in a country benefiting from Irish Aid support.

If the developing country in which your partner school or organisation is based is not listed please contact the WorldWise team at Léargas for clarification of its eligibility under the Scheme.

Please note that the Scheme is unable to support immersion projects and/or teacher visits to countries which the Department of Foreign Affairs strongly advises against travel to and therefore partner country eligibility is subject to change. For updates on the Department of Foreign Affairs travel advice please see [www.dfa.ie](http://www.dfa.ie).

Below is an indicative list of eligible partner countries. Please note applications will be considered by the Grant Committee on a case-by-case basis taking into account any security and travel safety issues at the given time in the identified partner country.

In addition Irish Aid and the Grant Committee may adjust the eligibility of particular countries due to safety concerns at any time.

### **Irish Aid Programme Countries**

Ethiopia  
Lesotho  
Mozambique  
Tanzania  
Uganda\* ( please note travel advice regarding certain regions)  
Zambia
