

WorldWise Teachers' Conference
6th May 2008
Suggestions from Participants Evaluations

Re Conference

Include student/pupils views

Have Conference at earlier stage in the year – when projects are starting up and when schedule is less busy.

Encourage school principals to attend - their support is vital

Have regional meetings

It would be useful to have displays of work done by projects to share information

Presentations from students who had been on immersion visits would be interesting

Developing ongoing contact

Use 'moodle' model re forum for ideas and contacts

Use website blog so that participants can benefit from resources, experiences.

Disseminate trip reports/ student evaluations/partner experiences

Have Gallery/ film clips on website

Share email contacts of participants/ speakers if they are willing

Have list of people/NGO's that can help in process of establishing a link for the immersion process.
